INFORMATION SYSTEMS TECHNOLOGY

What Can I Do With This Major?

Division of Academic Affairs

What Is Information Systems Technology?

Information Systems Technology is a heavily applied field geared primarily for students with an AS degree or a specific certificate (CNE, CCNA, MCSE, etc.) that wish to expand their knowledge of the field of information technology. Courses in IST are primarily hands-on and prepare the student for jobs running the hardware and software systems that handle information within an organization. In this program, students are expected to fully understand and be able to design, implement, and manage distributed information systems. Offered by the Engineering Technology Department, College of Engineering and Computer Science: www.ent.ucf.edu.
